Tofayel Ahmed

Code. Innovate. Dominate. Master of Algorithms & Architect of Scalable Systems. Crafting elegant solutions in MERN | PHP | Laravel . Turning coffee # into code, bugs into features, and ideas into reality.

Bogra, Rajshahi, Bangladesh

Summary

Mastering Code, Building the Future

I'm a seasoned software engineer with a passion for crafting scalable, high-performance applications. With expertise in full-stack development, system architecture, and AI-driven solutions, I thrive on solving complex problems and optimizing digital experiences.

What I Do:

Architect and develop high-performance web applications

Optimize databases and back-end infrastructure for speed & efficiency

Build intuitive and scalable front-end experiences

Automate workflows with AI & machine learning

Tech Stack:

Languages: JavaScript (MongoDB, Express.js, React, Node.js), PHP (Laravel, MySQL)

Back-end: Laravel, Express.js

DevOps: Docker, AWS

Databases: MySQL, MongoDB

Security: Cybersecurity best practices & encryption

Beyond Coding:

I mentor developers, contribute to open-source projects, and stay ahead of industry trends. My mission? To build technology that empowers businesses and improves lives.

Let's connect and build something extraordinary!

Experience

SudoGap LTD
